Federal Wide Assurance (FWA) & IORG/IRB Registration

“HHS human subject protection regulations and policies require that any institution engaged in non-exempt human subjects research conducted or supported by HHS must submit a written assurance of compliance to OHRP. The Federalwide Assurance (FWA) is the only type of assurance of compliance accepted and approved by OHRP. FWAs also are approved by the Office for Human Research Protections (OHRP) for federalwide use, which means that other federal departments and agencies that have adopted the Federal Policy for the Protection of Human Subjects (also known as the Common Rule) may rely on the FWA for the research that they conduct or support. Institutions engaging in research conducted or supported by non-HHS federal departments or agencies should consult with the sponsoring department or agency for guidance regarding whether the FWA is appropriate for the research in question.” Office of Human Research Protections (OHRP) http://answers.hhs.gov/ohrp/categories/1563

CSU has established an FWA with OHRP. Researchers frequently need to know the FWA and/or IRB Registration number and expiration date when submitting grant applications. While the FWA and IRB registration numbers remain the same, the expiration dates are frequently updated.
