October 20, 2011 • 3:30 pm Dedication
4:00 pm Keynote Address • Room 100 Eddy Hall

Dr. Matthew Hickey
Professor, Colorado State University, Department of Health & Exercise Science

“Ethics and the Idea of a University”

The Ethics Infusion Program (EIP) is an 8-week "train-the-trainer" workshop open to all CSU faculty, staff and students. The goal of the EIP is to provide a basic framework and course material introducing ethical issues in research for all courses that involve scientific research and/or the study of research methods.

The course is co-directed by Professors Jane Kneller (Chair, Dept. of Philosophy) and Kathy Partin (Director, Research Integrity & Compliance Review Office).

For more information or to join the Fall EIP, please contact Marty.Welsch@colostate.edu.
