Facility Training Workshop

Best Practices in Authorship & Publication

The goal of this workshop is to help faculty better mentor their trainees in good authorship practices. Failures in communication and oversight in this important aspect of the scientific enterprise can lead to retractions and charges of research misconduct.

March 10th 11-1 pm

LSC Grey Rock Room

Topics Covered:

- Collaboration Skills
- Authorship Criteria
- Authorship Disputes
- Peer Review
- Retractions & Plagiarism
- Metrics (h-index, JIF)
- Case Studies

Workshop Speaker

Ellen R. Fisher, Professor & Department Chair, Chemistry

Ellen teaches multiple Responsible Conduct in Research courses. She has over 135 publications in plasma science, materials chemistry, and education and currently serves as an Associate Editor for the journal ACS Applied Materials & Interfaces.

Registration and lunch are provided; however, we request that you register at:
